

Behavioural Interventions

Language & Culturally Relevant Education

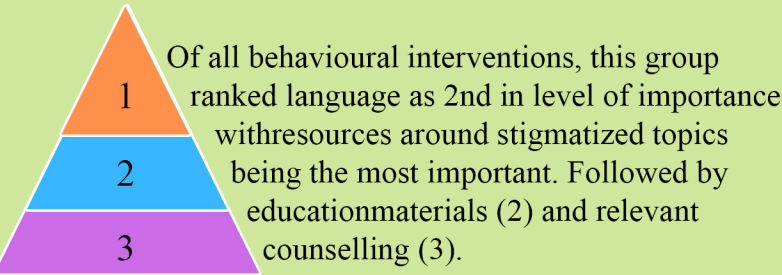

Behavioural interventions include integrated and interactive online education, informal culturally relevant education, and peer and community mentorship programs.

Language and culturally relevant education includes a number of materials that are MENA youth focused and offered in MENA languages. These resources should be available at local and provincial levels in culturally safe locations. Interventions are ranked according to the sub-group's (gay/bi/MSM, heterosexual women and men, trans- women and men identifying, and LBQ women) level of importance. Sub-groups were asked to list the top 3 programs within the five behavioural programs. Interventions for language and are culturally relevant included:

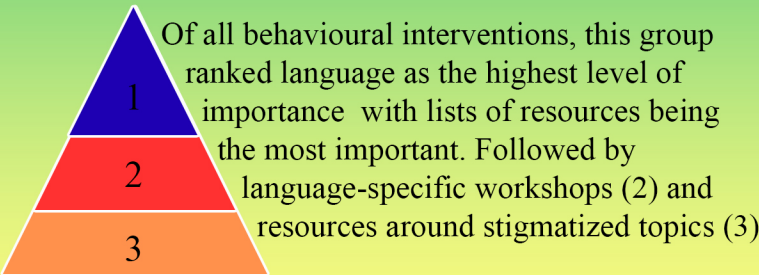

Legend

-  Resources around stigmatized topics to support education and awareness
-  Language-specific workshops in Arabic and Farsi
-  Culturally relevant educational materials
-  Culturally relevant counselling
-  List of resources and supportive networks (healthcare, therapists, etc)

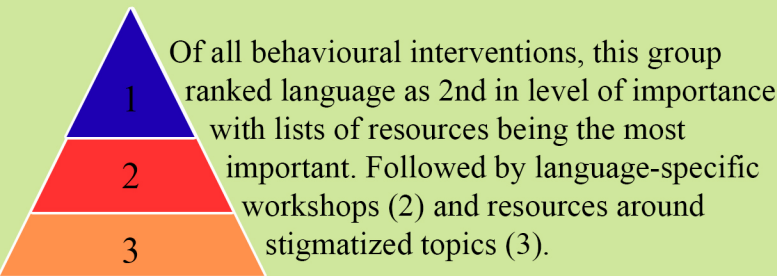

Gay/Bi/MSM

Heterosexual Women and Men

Trans-Women and Men Identifying

LBQ Women
